

Connect the dots.

Help Jojo connect the dots and look at who's hidden behind your drawing.

Write the name of the animal you depicted : _____

The dot-matrix puzzle is a large whale shape composed of 81 numbered dots. The dots are arranged in a way that, when connected, they reveal the outline of a whale. The whale's body is mostly defined by the dots, while its tail, dorsal fin, and a small fish are drawn with solid lines. The puzzle is set against a background of a sea landscape with coral, a shell, a starfish, and a fish.
